MANAGE YOUR CARD WITH YOUR FINGERTIPS

CardValet is a management app that helps reduce fraud by giving you the ability to easily monitor and manage accounts with your smartphone AND control how, when, and where your MED5 debit or credit card is used. Real-time alerts can be customized based on the types of information each cardholder would like to receive.

CardValet offers custom notification settings based on geographic location, different purchasing categories (household, gas station, travel, etc.), and spending limits. You can add multiple cards to one account, view your MED5 account activity, and even set usage restrictions on the card. However, possibly the BEST feature of CardValet is the ability to "turn off" your card if it is ever lost or stolen – just from the app!

For small business owners, all transactions can be monitored or controlled for specific merchant categories, such as travel, restaurants, or entertainment, and can be denied or reported for types of merchants deemed not business-related.

Best of all? It's FREE! That's right. It will cost you zero, zilch, goose egg, nada, a big fat \$0 to monitor your MED5 FCU finances!
